

CENTRAL LAKE ONTARIO CONSERVATION FUND

We all need to play!

Central Lake Ontario Conservation has been working to provide opportunities for children of all ages, landowners and the general public to enjoy the many benefits of a healthy natural environment.

RECREATION AND THE CONSERVATION AREAS

LAND ACQUISITION, TRAIL IMPROVEMENTS AND WILDLIFE MONITORING

Central Lake Ontario Conservation has acquired more than 1642 hectares (4208 acres) of conservation lands through donation and financial assistance. These lands are extremely important to the community for recreation and environmental education. The pursuit of activities such as hiking, cross country skiing, mountain biking and naturalist activities by the public draws over 150,000 visitors annually. Ongoing maintenance efforts include planting programs, natural heritage studies, and trail improvements.

Working with you, together we can make a difference.

Your support is important.

All donations, small and large, and volunteer time will help us to continue to improve our education, conservation, and recreation programs and activities that serve this growing community.

OUTDOOR AND ENVIRONMENTAL EDUCATION

EXPERIENCE LEARNING BEYOND THE BLACKBOARD

Central Lake Ontario Conservation has designed over 20 programs for grade levels K-8 to meet Ontario curriculum learning expectations. Each year more than 26,000 students, teachers and volunteers participate in school programs at one of the conservation areas.

LAND MANAGEMENT AND STEWARDSHIP

WATERSHED STEWARDSHIP SERVICES

Central Lake Ontario Conservation staff assists landowners and municipalities with habitat restoration and enhancement projects to promote natural heritage stewardship throughout the watershed.

CONSERVATION AND ENVIRONMENT EVENTS

MAPLE SYRUP FESTIVAL

The 29th annual family festival takes place during March Break at Purple Woods Conservation Area. Visitors enjoy viewing the changes to maple syrup production over the past 400 years. There are opportunities to enjoy homemade pancakes with pure maple syrup, historical displays, kids contests and other activities. Each year the festival attracts over 12,000 children and adults.

DURHAM CHILDREN'S GROUNDWATER FESTIVAL

Back for its 7th year, this five-day event attracts over 4,400 grade 4 students to learn about water conservation. Through 35 interactive activities, the children learn about the environmental issues that affect them and where they live.

Your continued support today will help ensure future generations reap these long lasting benefits.

DONATION FORM

- I would like to make a donation to support the work being done by Central Lake Ontario Conservation.
- I would like to volunteer, please call me with more information.

First Name _____

Last Name _____

Address _____

City _____ PC _____ Tel: _____

Email: _____

- Yes, you may contact me by email.

Payment Information

CENTRAL LAKE ONTARIO CONSERVATION FUND

Central Lake Ontario Conservation Fund was established as a registered, charitable, non-profit organization on May 6, 1997.

Central Lake Ontario Conservation Fund is a strong supporter of passive recreational opportunities for the community-at-large, outdoor and environmental education for youth, land stewardship services for landowners, and conservation and environmental events for the general public.

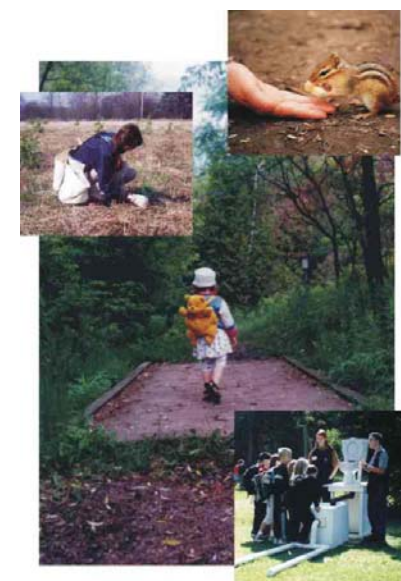

Central Lake Ontario Conservation Fund seeks support from individuals, corporations and foundations for conservation projects that will create awareness of the natural environment and benefits for local residents and out-of-town visitors.

The proceeds to the Fund contribute exclusively to the charitable purposes of preserving, protecting, restoring and improving the natural resources and environment of the Central Lake Ontario watersheds.

Central Lake Ontario Conservation watersheds are 638 square kilometres in area and include the municipalities within 15 creek systems: Bennett, Black, Bowmanville, Corbett, Darlington, Farewell, Goodman, Harmony, Lynde, Oshawa, Pringle, Robinson, Soper, Tooley, Westside, all within Durham Region.
