

Port Darlington Shoreline & Flood Damage Centre Study¹

Public Meeting & Listening Session

Saturday, December 1st, 2018

Darlington Nuclear Information Centre - Auditorium

Ontario Power Generation

1855 Energy Drive, Courtice, Ontario

8:30 am – 12:00 pm

AGENDA

Meeting Purpose: To create a space for meaningful conversation about shoreline flooding and erosion in the Study area.

Meeting Objectives:

1. To provide meeting participants with follow up information about the 2018 Port Darlington Shoreline & Flood Damage Centre Study, including the focus of the study and the proposed community engagement process.
2. To re-introduce members of the Consulting Team (Aqua Solutions Inc., Baird Engineering & Planning Solutions Inc.).
3. To share details of the study results and draft recommendations.
4. To allow meeting participants to ask questions and provide input.
5. To provide an opportunity for participants to offer valuable, valued and meaningful input about their flooding and erosion concerns as well as their suggestions to address these hazards.

Initial Registration Details	
8:30	Registration Opens (Main Lobby) Coffee & Tea

N.B.: Doors Open at 8:30 am.

¹ The results of the engineering analyses will be shared with residents at the meeting. Draft Recommendations will be presented but no decisions have been made at this stage. The purpose of this meeting is to follow up on the commitment made at the first meeting to ensure residents are kept fully apprised of the process, the engineering analysis and have an opportunity to share their ideas, concerns and input in a meaningful way.
